TOOL -NAME

Thunderbit: Ai Web Scraper & Web Automation Agent

I tested Thunderbit – Agentic AI Web Scraper and found it effective for basic and advanced scraping tasks. Below is a brief breakdown:

Features:

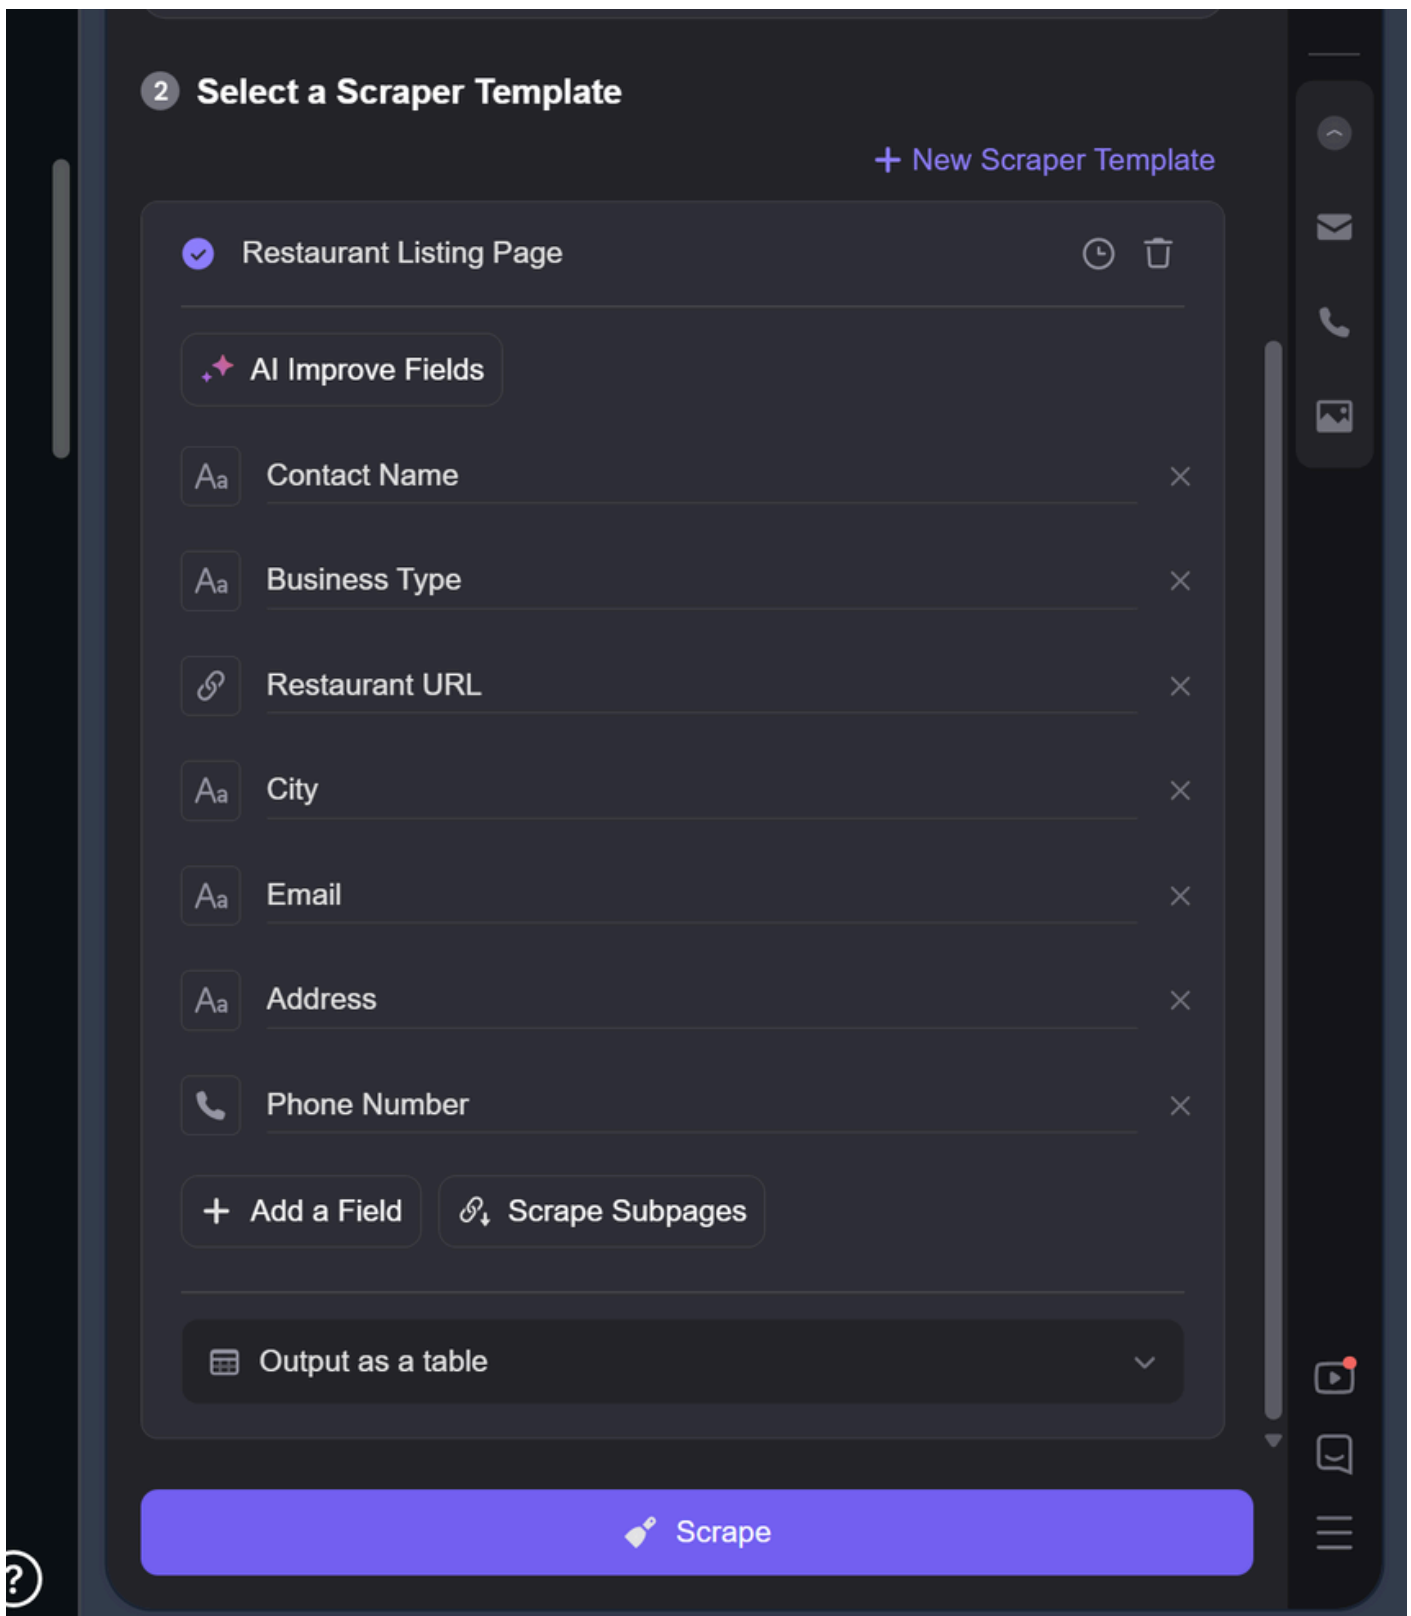

- Scrapes any website in just 2 clicks
- AI auto-detects data structure and exports it in table format
- Supports pagination and subpage scraping
- Built-in email, phone, and image extractors
- AI autofill for forms and workflow automation
- Export to Excel, Google Sheets, Notion, Airtable (free export)

Starting -interference

Customization Options :

- Customize extracted columns like Name, Email, URL, etc.
- AI organizes data in structured format
- Edit or remove specific fields to match your exact task
- Ideal for targeted scraping (like for leads or listings)

Free Version (Trial):

- Scrapes only 1 page per task
- Basic email/phone/image etc extraction tools are free forever

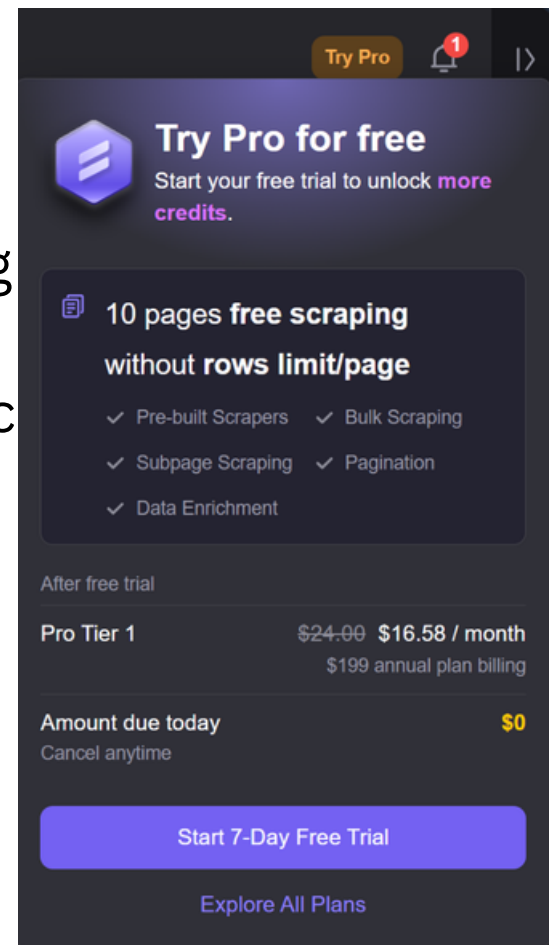

Paid Version:

- Full access to multi-page scraping
- Custom column setup
- More control over extraction logic
- Ideal for bulk data collection

Result Summary

The tool is:

- Easy to use
- Clean and fast
- AI-driven with useful customization
- Worked well for extracting data from the first target page in my task

Task: Use APIFY to extract business records (name, contact, type, email, city) from [ypages.pk](https://www.ypages.pk)

Since APIFY had limitations and errors,

I used an alternative tool:
